

Make your own mini-booklet:

1. Cut off the unprinted outside edges of the page. Fold in half lengthwise. Then, starting with the cover page, fold along the dotted lines in accordion fashion.

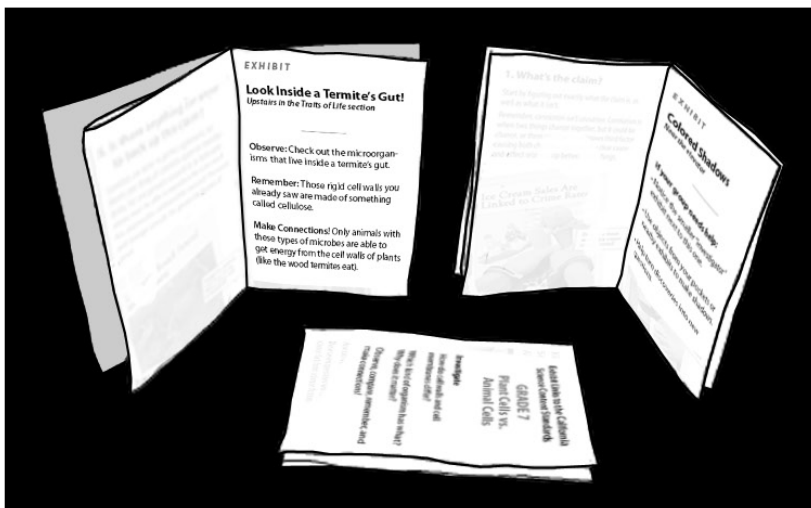

2. Unfold the page, fold it in half widthwise, and then cut along the solid line ONLY.

3. Unfold the page again and fold it in half lengthwise.

4. Pop out the diamond-shaped center and arrange the pages so the cover is in front.

5. Press along the seams to flatten your booklet.
